

Special Dietary Requirements Policy

Special dietary requirements are catered for at Malvern College. Pupils may make an ethical choice to become vegetarian or vegan, if they so wish. Pupils may also wish to avoid certain foods due to religious beliefs. For ethical and religious special dietary requirements, parents must notify the Housemaster, so that the appropriate catering arrangements can be made.

Any other diets, such as gluten-free, will only be provided once medical confirmation has been received, clearly stating that this is necessary from a health perspective. We wish to ensure that pupils make informed choices about what they eat and we have a duty to ensure that they have discussed nutritional requirements with an appropriate person.
